

Shadburn Residence | Marianna, FL

Haylee Reisen
Summer 2025 | Donofro Architects

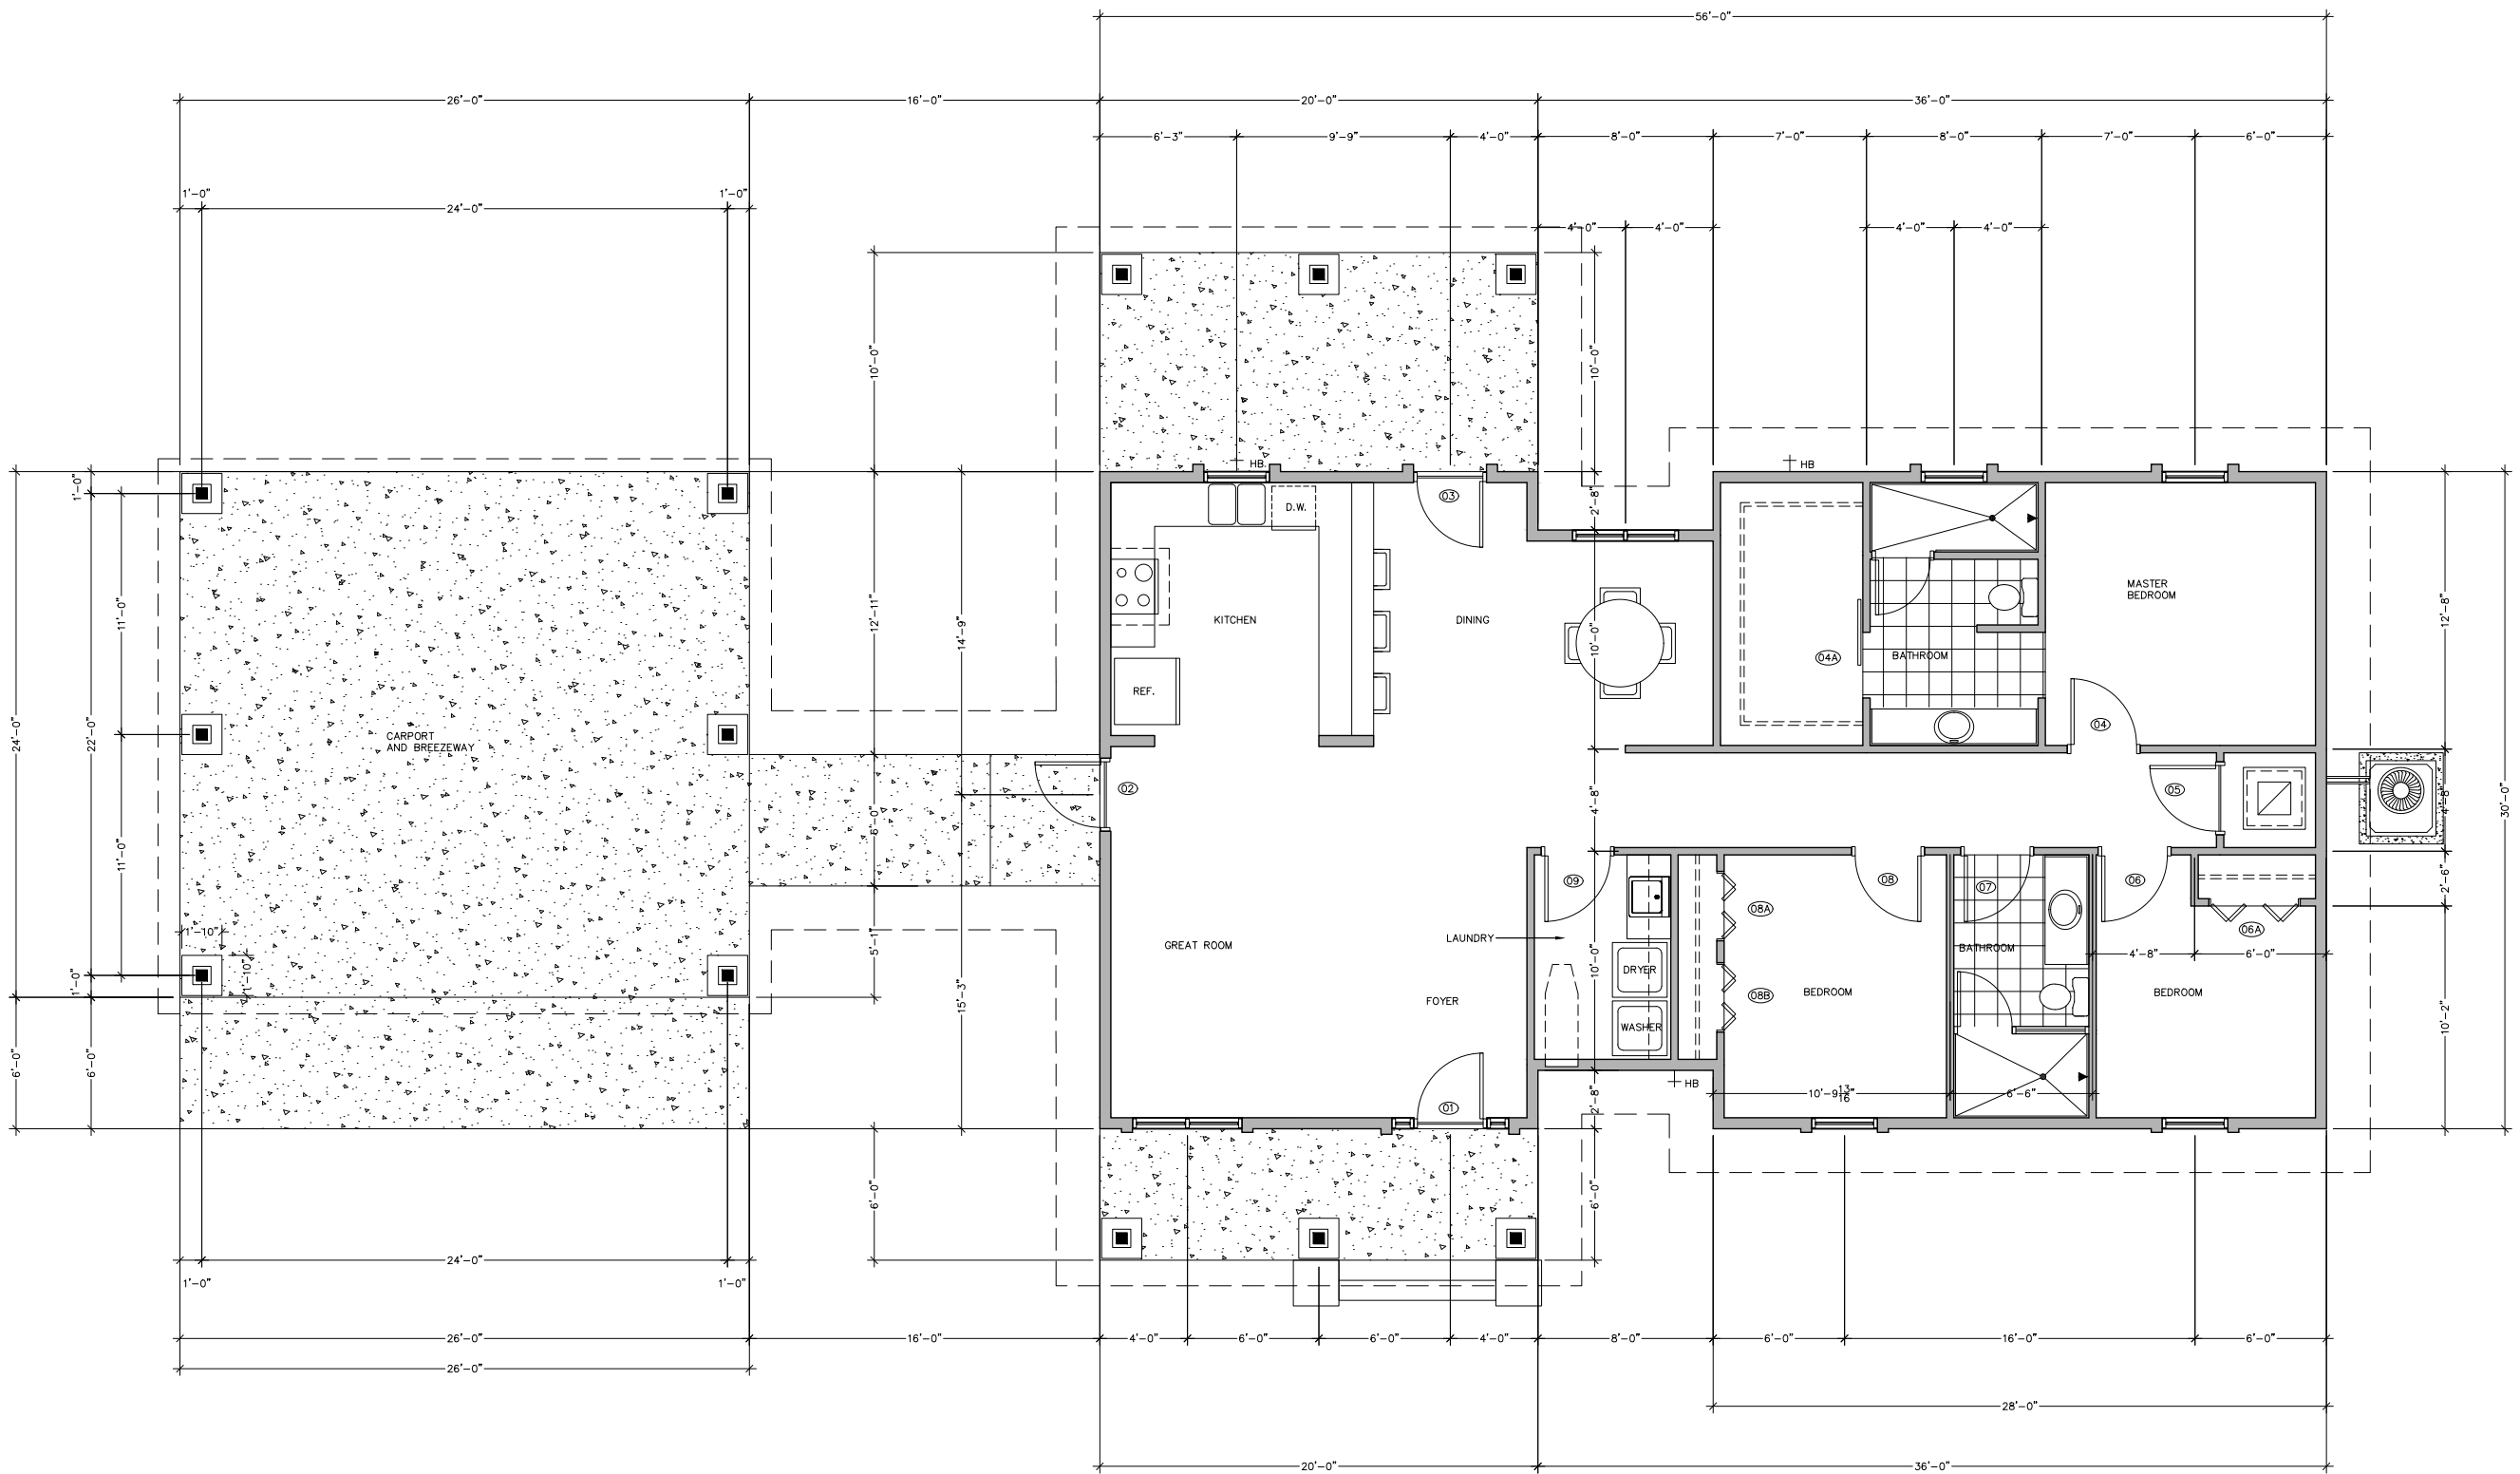

Supervisor | Paul Donofro

During the summer of 2025, I completed an architecture internship under Paul Donofro at Donofro architects in Marianna, Florida. The Shadburn Residence was my first project, and my role was to complete all the drafted construction drawings in AutoCAD Architecture. The final drawing set was eight pages, including floor plans, exterior elevations, typical wall sections, a foundation plan and details, a roof plan, a roof truss plan, and an electrical plan. Throughout the summer, I worked on eleven projects in both the commercial and residential spheres. I also assisted on site visits, sat in on client meetings, and referenced the Florida Building Code for life safety compliance.
